Professional Summary

Motivated and dynamic Full Stack Web Developer with specialized expertise in React.js and a proven track record of delivering high-quality web applications. Experienced in both frontend and backend development, with strong leadership skills and a commitment to innovative problem-solving. Seeking to leverage my skills and experience in a challenging full-stack development role.

Education

Full Stack Web Development (MERN Stack) Certificate

EvangadiTech Bootcamps

Work Experience

Full Stack Developer

Beth Israel Lahey Hospital, [Boston, MA] | [2021-2022]

- **Strengthened Web Application Security:** Spearheaded efforts to bolster the security of React-based web applications by integrating best practices such as secure authentication mechanisms, data encryption, and regular security audits to protect sensitive healthcare information
- **Collaborated on Web Solutions:** Worked closely with various departments to design and deploy React-based web applications, enhancing user experience for both internal teams and external users through intuitive interfaces and optimized functionality
- **Optimized Performance:** Boosted website performance by employing efficient React coding practices, optimizing component rendering, and regularly updating the tech stack to ensure swift load times and a seamless user experience.
- **Advanced Digital Transformation:** Contributed significantly to the hospital's digital transformation efforts by developing responsive, user-friendly interfaces

Full Stack Developer

Carestream Dental, Atlanta, GA | [2022-2023]

- **Developed and maintained a suite of web applications:** Focused on enhancing user experience and optimizing backend performance for healthcare management systems
- **Collaborated with cross-functional teams,** including product managers, UX/UI designers, and QA testers, to deliver robust software solutions customized to meet client needs.
- **Implemented and optimized RESTful APIs,** improving data flow and integration between frontend and backend systems
- **Used React.js for frontend development and Node.js/Express.js for backend operations,** ensuring seamless integration and platform functionality.
- **Spearheaded efforts to refactor legacy codebases,** enhancing application stability and reducing technical debt.

Web Developer / Programmer

[EvangadiTech], [Maryland, USA] | [2023-2024]

- Led the development of an Amazon-clone app with React.js, creating a fully functional e-commerce platform that integrates both front-end and back-end features
- Built a Netflix-clone app using React.js to provide online video streaming services, with a focus on enhancing user experience and ensuring seamless content delivery.
- Developed Evangadi-Forum using React.js, a comprehensive Q&A platform that allows users to post and review questions and answers, thereby enhancing user engagement.
- Recreated Apple's website using React by developing components for various pages and sections, ensuring a dynamic and responsive design.
- Collaborated with cross-functional teams to conceptualize designs, develop code, and implement testing protocols to ensure high-quality software delivery.
- Led project management efforts, ensuring timely completion of development milestones and effective communication across all stakeholders.

Skills

- **Frontend:** JavaScript, HTML5, CSS3, React, jQuery, Bootstrap, WordPress, Shopify
- **Backend:** Node.js, Express.js, REST API
- **Database:** MySQL, MongoDB
- **Tools & Platforms:** GitHub, VS Code, Adobe Photoshop, JSON
- **Deployment:** [Specify Deployment Tools/Platforms Used]
- **Soft Skills:** Teamwork, Communication, Problem-solving, Leadership, Adaptability
